To the Book Trade of the United States :

Since the issue of the Last Educational Number of the PUBLISHERS' WEEKLY the American Book Company has been organized, and has purchased the school-book publishing rights of several leading houses in the trade. The Company thus becomes sole owner of a large number of the most popular and successful school text-books and enters into business relations, direct or indirect, with nearly every dealer and community in the country.

The officers and directors of the Company have long been known to the trade, and their record and character are a sufficient guaranty that the affairs of the Company will be conducted upon honorable principles.

The school-book trade has undergone many changes within the past twenty-five years, and has been variously affected by legislation. Yet, even under the most adverse system, the regular dealer is in most cases regarded as the best agent for handling the local supply of school-books ; and it is clearly apparent that the long established customs and traditions of the book business cannot easily be swept away. Furthermore, a very large majority of our communities see in the maintenance of the local book-store an element of great value to the cause of public intelligence.

It will be the aim of the American Book Company loyally to abide by every law and to comply with every public demand. The Company will conduct its business with economy, and proposes to give the public and the trade the benefit of this economy. In return it expects of the trade and of local dealers generally a reasonable co-operation in its endeavor to supply its publications to the actual consumer at the lowest prices at which similar publications can be bought in any country.

The publications of the American Book Company embrace a large proportion of the school text-books used in the schools of the United States. Their popularity is due to the fact that they have been brought out under most careful supervision, and thus represent the best scholarship available for the preparation of text-books, combined with the keenest practical judgment of the needs of American schools. Prepared by leading educators in every grade of school work, and in all sections of the country, they present a varied list, from which the most judicious selection can be made for every grade of public and private schools.

THE AMERICAN EDUCATIONAL CATALOGUE FOR 1890.

[PUBLISHERS' PRICES.]

NOTICE.—In this Catalogue only prices made by publishers themselves are given—retail, if retail, in first column; “net” (wholesale, if “net,” in second column; where a “mailing” percentage is specified by the publisher, the “mailing price” is given in the retail column marked with an asterisk (*), in addition to the wholesale price. When price-columns are left blank, the publisher failed, on application, to furnish price. A double asterisk (**) in price-columns designates books forthcoming. New books, issued since the publication of the Catalogue of 1889, are designated by a single asterisk (*) before title.

 In comparing prices or ordering at retail, private buyers should bear in mind that a percentage must be added to prices quoted at wholesale, to cover freight, handling, delivering, etc. Discounts on quantities vary on different lines, according to the kind of prices adopted by the respective publishers.

For subject classification (and for collective references to classic authors entered here under separate editors), see the second part of the Catalogue, following this main alphabet.

Rolfe's English Classics.

SHAKESPEARE'S WORKS.

Complete in Forty Volumes. Price per volume, Paper, 40 cents ; Cloth, 56 cents.

This edition of Shakespeare's plays is intended for school and college use, and also for the private student and the general reader. It is the only *illustrated* school edition of Shakespeare in the world. It is the only school edition that gives a summary of the various readings and the critical comments of *all* the leading editors.

The INTRODUCTION to each volume contains *the history of the play*, according to the latest investigations ; an account of *the sources of the plot*, with copious extracts from the chronicles or novels from which Shakespeare drew his materials, when these are of any value or interest to the student ; and selections from the leading English and foreign *criticisms upon the characters* of the play.

The TEXT is the result of a careful collation of the folio of 1623 and the other early copies with all the more recent editions that have any critical value. The "expurgation" is limited to the deletion of the very few words or passages which cannot be read aloud in school, and which are always omitted on the stage.

The NOTES are fuller than in any other school or standard edition, except Halliwell's great folios and Furness' "New Variorum."

From Rev. A. P. PEABODY, D.D., Professor in Harvard University.

While the educational purpose and use of the series have been kept constantly in view, I think that your readers are awakening to the knowledge that you are preparing editions of these plays suited to the wants and taste of persons of mature age and culture. Of all editions of Shakespeare that I have had or seen for the last thirty years, I should prefer yours, so far as it goes, for my own private reading.

LONGMANS, GREEN, & COMPANY'S NEW BOOKS.

Longmans' School Geography for North America.

By GEORGE G. CHISHOLM, M.A., and C. H. LEETE, A.M., Ph.D., Fellow of the American Geographical Society. Large 12mo, 384 pages, with 70 illustrations, \$1.25. [*Just ready.*]

In Longmans' School Geography an attempt is made at a new departure in the teaching of geography by providing a text-book which is founded on the results and methods following from the great advance which has taken place in geographical science and teaching on the continent, and especially in Germany. The aim of the author has been to exclude from the book almost all details which pupils cannot be expected to keep permanently in mind, but to take care that what the book does contain should consist of what is most effective as discipline, and of most importance to know. In the American edition, prepared by Mr. Leete, the portions on America in general, North America, and the United States have been newly written. The other parts have been changed but little, though alterations and adaptations have been made wherever they seemed called for by the fact that American instead of English or Australian pupils were to be the readers.

Every School Library Should Include

HEROES OF THE NATIONS.

A series of biographical studies of the lives and work of certain representative historical characters, about whom have gathered the great traditions of the Nations to which they belonged, and who have been accepted, in many instances, as types of the several National ideals. With the life of each typical character will be presented a picture of the National conditions surrounding him during his career.

The narratives are the work of writers who are recognized authorities on their several subjects, and, while thoroughly trustworthy as history, will present picturesque and dramatic "stories" of the men and the events connected with them.

The series will be under the editorial supervision of EVELYN ABBOTT, M.A., of Balliol College, and the volumes will be issued by Messrs. PUTNAMs simultaneously in New York and London. The volumes are beautifully printed in large 12mo and are fully illustrated, selling, in different styles, for \$1.50, \$1.75, and \$3.50 per volume. A full prospectus sent upon application.

THE BEST INVESTMENT

for the Family, School, or Professional Library.

The Latest Edition has 118,000 words in its vocabulary, and over 2,000 pages, with illustrations on nearly every page. Besides many other valuable supplemental features it comprises a **Biographical Dictionary**, a **New Gazetteer of the World**, and a **Dictionary of Fiction**.

THE WEBSTER OF TO-DAY

is The Standard Authority in the Government Printing Office, and with the U. S. Supreme Court. It is recommended by the State Superintendents of Schools in 39 States, and by the leading College Presidents of the U. S. and Canada.

DON'T BE DUPED

by buying the cheap phototype reprints of an obsolete "Webster" now being foisted upon the market. From A to Z they are **all alike**, being poor reproductions of the Dictionary of over 40 years ago. Announcements concerning them are very misleading; for instance, the supplement of 10,000 so-called "new words" was compiled by a gentleman who has been dead over thirty years, and was published before his death. Other so-called additions are reprints of a like nature. These books are all comparatively valueless. The Latest and Genuine Edition of

Webster's Unabridged Dictionary

bears on its title page the imprint of

G. & C. MERRIAM & CO., Springfield, Mass.
